

Document Delivery from RightFind™

A world of content at your fingertips

RightsDirect's advanced, cloud-based RightFind™ content workflow solution makes high-value content available to your global workforce anywhere, anytime on any browser-enabled devices. The leading document delivery service, RightFind, is used by over 8700 organizations in 113 countries.

Features and Benefits

Speed

RightFind delivers the documents you need quickly, cost-effectively and copyright compliantly, processing more than 1.5 million orders annually. Our direct relationships with thousands of publishers ensure fast document turnaround time, with immediate access to most items.

Access

RightFind's proprietary searchable database of more than 60 million citations comprises the world's largest collection of scientific, technical and medical (STM) content. The content is aggregated from our partnerships with publishers and libraries around the globe, including the world-renowned NRC-CISTI Canadian National Science Library Collection.

In the event that the content you seek is not included within our extensive holdings, RightsDirect's team of experienced Advanced Referencing Services professionals will research, locate, clear copyright and deliver your document.

Ease of Ordering

RightFind makes ordering documents easy with our simple Content Finder search box. Orders can also be placed by form, search and citation while logged into RightFind, or through our easy-to-use bookmarklet. Our innovative bookmarklet is easily added to your browser toolbar and allows for fast article ordering or copyright permissions checking through RightFind. When viewing an article title, journal name, ISSN or ISBN on any website you are browsing, simply highlight and click the bookmarklet to get information about the publication or to place an order.

Copyright Compliance

RightFind only delivers copyright compliant content. All document orders will be cleared through your organization's licenses, RightsDirect's direct publisher relationships, your RightsDirect Multinational Copyright License or directly through the rightsholder.

Customer Service

We're here when you need us. From providing assistance to end users, to helping library staff with issues related to copyright and more, you can count on our Customer Service staff to help you get the most from RightFind. RightsDirect provides 24/7 customer support by email, telephone and online help resources.

Personal Libraries

Every RightFind user has access to a Personal Library, a dedicated space where the documents they purchase are automatically saved. Folders can be created for easy storage and organization, and intuitive tools are available to tag, annotate, rate and review content for future research or review.

Payment Options

We offer multiple payment options including credit cards, deposit accounts and invoice accounts with cost center billing available. Individuals can easily set up personal RightFind Now accounts and pay for documents using credit cards.
