

Multinational Copyright License

Verifying License Coverage with RightFind™ Advisor

Checking coverage under your RightsDirect Multinational Copyright License is easy with RightFind™ Advisor. You can check rights by journal title or standard number (such as an ISBN number) or by searching for a specific article (if enabled for your account).

1. Accessing RightFind Advisor

To access RightFind Advisor, go to <https://rightfind.copyright.com>. If you are IP authenticated on your company's network, you will see the RightFind Advisor homepage. If you are on a computer outside of your company's network, you must login. Register your account as a new user. You must register your account with a company approved domain (This should be your professional email).

2. Searching for publications

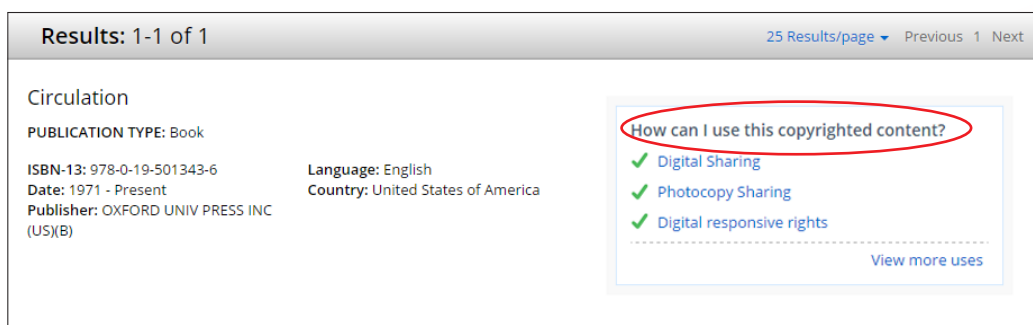

To search for a publication, go to the RightFind Advisor homepage. If you have article searching enabled, you will be able to choose whether to search by publication or by article/chapter.

- a) When searching **by title**, you can search publication title or Standard Number (ISBN/ISSN).
- b) When searching for **articles or chapters**, you can search by article/chapter title, author, or industry standard identification numbers used to uniquely identify articles and chapters (such as DOI or PMID). You can also search for keywords in the article abstract.

3. Verifying license coverage

In the search results, the most frequently requested publications are displayed first. When searching by publication title, your RightsDirect Multinational Copyright License coverage is shown to the right of the search results.

When searching by article title, click on "How can I use this copyrighted content?"
